Bluetooth A2DP (Wireless Music Streaming)
Pair your mobile phone with the unit and send your music stored on your mobile phone wireless to the radio. Enjoy all of your favorite music in your car.

Bluetooth with HSP/HFP
Pair your mobile phones with the unit and enjoy the ease of calling and talking to your loved ones without taking your hands off the steering wheel.

SD/MMC Card Slot
Supports most SD or MMC cards - simply plug & play and enjoy listening to MP3/WMA/OGG music stored on your card.

Universal Serial Bus (USB) Host
Supports most USB-compatible devices or storage media - simply plug & play and enjoy listening to MP3/WMA music stored on these devices/media.

Switchable Illumination
A cool feature that lets you customize the color of the display to the color of your dashboard.

Speed Dependent Volume Control
Intelligent volume control which automatically adjusts the volume level to the speed of your car (SDVC=SMART Volume).

Audio CD/MP3/WMA Player
The enhanced CD player is compatible with regular-shaped 12cm discs containing CD audio and MP3 music files stored on CD-R, CD-RW discs. Copy-protected CDs which do not comply with international audio CD standards (Red Book) may not be supported.

Programmable Steering Wheel Remote Control Interface
This programmable interface allows for the operation of the head unit via the OEM steering wheel remote control.

Auxiliary Input (Front 3.5mm Jack)
Project music from an externally-connected music player onto the vivid car speakers.

2-Channel Preamp Out (2V)
Ensures that the music arriving at the external power amplifier is clear and sharp with less background noise.

Full Detachable Flipdown Front
Deter theft by removing the detachable front of the radio head unit whenever you leave the car and simply slide the front back into position upon your return.

Electronic Shock Protection (ESP)
Electronic Shock Protection allows a 10-second (CD-DA) buffer memory to ensure continuous music playback regardless of excessive vibrations.
